Rules of the Road

- Ask questions as we go – especially if I talk too fast!
 - Meta questions please! Not just about your company
- Don't Ramble – I'll interrupt
- Virtually...
 - Network – you need to build you network for the future starting today
 - #GiveFirst – you have complimentary skills around you

Score Yourself

1-4

Team: Why you, balanced team (talents, diversity), domain experts, serially successful founders, great company experience

Idea: Are you solving a problem? New or existing problem, big category (vs tool), early/late continuum, technical achievable, pain pill or vitamin

Product: do you have a product, how mature, customer first, solid design, clear roadmap to scale

Market/Customer: big market (TAM/SOM), cash available, new or nascent market?

Competition: How many incumbents, funding status, are you incremental better or 10X better?

Traction: Customer validation, revenue, improving unit economics?

Timing: Why now? Are you late, early, too early?

Revenue Model/Finance: How will you monetize your idea? Do you have a basic budget on spending, big or small economics

IP/Moat: Is your idea defensible? Can you build a moat over time?

Clear Ask: What do you need help with? Advice, funding, introduction, help finding staff?

Why Startup Fail

BASED ON ANALYSIS OF 101 STARTUP POSTMORTEMS Top 20 Reasons Startups Fail

Launch & Survive

What Matters Most?

Passion!

The Product

Making \$\$

The Market

The Team

Some Calculus

- Great Team in Bad Market = Failure or meh result
- OK team + Great Market = could be great result
- Great Product + no path to revenue = failure
- OK product + great monetization = make \$\$

- Great market + great team + great product + solid monetization + great execution = monster result

Product/Market Fit = Math

- PMF means being in a good market with a product that can satisfy that market (no more pivots required)
- Pre-PMF looks like compound interest, early options:
 - 1. Traffic is increasing**
 - 2. Leads are increasing**
 - 3. Customer count is increasing**
 - 4. ACV/MRR is increasing**
 - 5. Time to close is decreasing****= Miracle of Compound Interest**

Keyword Planner

The screenshot shows the Google Ads Keyword Planner interface. At the top, there's a navigation bar with 'Google Ads | Keyword Planner' and icons for search, reports, and tools & settings. Below this is a notification bar: '2 / 2 > Your account isn't active - Your ads aren't running because your account has been canceled.' The main content area features a 'Discover new keywords' dialog box with two tabs: 'START WITH KEYWORDS' and 'START WITH A WEBSITE'. The 'START WITH A WEBSITE' tab is active, showing a text input field with 'https://', a dropdown for language ('English (default)'), and a dropdown for location ('United States'). There are two radio buttons: 'Use the entire site' (selected) and 'Use only this page'. A 'GET RESULTS' button is at the bottom left of the dialog.

This screenshot shows the results page in Google Ads Keyword Planner. The search criteria are 'Site: https://www.startups.com', 'United States', and 'English'. The results show '1,143 keyword ideas available'. A table lists various keyword ideas with their search volume, competition, and bid ranges. Two blue arrows point to the search input field and the '1,143 keyword ideas available' text.

Value Proposition

Positioning

- Positioning is holding a place in your customer's mind – not as everything, what's memorable?
- Who is the initial customer
- Think about limiting service and customer first – before you expand
 - You're not precluded from selling other services or products
- What claim or promise will you make?

Don't Bury the Lead

- Think of this like journalism
- What's the headline?
- What's the Lead?
- What's the Story?

Testing

- Each pitch is a rapid A/B testing
- Look for 1:Many opportunities to test your value proposition

Branding

- You don't have a big budget – so you can't afford brand advertising
- Start with brand neutral and build
- Memorable
- Phonetically easy to spell
- Avoid double letters, etc

Dave's Madlibs Pitch

Hi, I'm <your name here>, and my company <your Company name here> the problem I'm solving is <insert problem here>. Our product <insert product info here> is designed for our target customer of <insert target customer here>. We make money by <insert method here> and our team is the right team because <insert why you're awesome here>. I need help with <insert help needed here>.

Workshop

- Write out your value proposition
 - Today (you have to sell what you have)
 - Future (if the customer says no – then tell them the roadmap)
- Ideal Customer Profiles
 - Today
 - Future

Customer Development

Customer Development

- Parallel process with Product Development
- “Get out of the Building”
- Develop for a few not Many
- Prioritize features based on Needs not Wants
- Validate with Revenue/Commitment

Customer Development Goals

- Acute focus on **problem** – not product
- Find out if customers care?
- What do they want?
- Determines the difference your product at launch and at scale
- Feature priorities & Product Roadmap

Customer Dev Mechanics

- Google Forms
- Structured questions
 - Progression
 - ? Easy to Hard
 - What do you really want to know?
 - Will they pay for it? How much
 - Why will it fail
- Neutral, not Guided Questions

Customer Dev Mechanics, Cont

- Build a list of interested parties
 - Mail Chimp List setup
 - Ask for permission to email
 - Monthly updates –
 - ❓ Format: “What we did, what we’re going to do and where we can use your help”
- Regular frequency – be predictable

What Not To Do

- You are not the customer
- Don't tolerate a small sample set – this could delay your success by **Years**
- Avoid “Selection Bias”
 - “Isn't our product amazing”
- No rhetorical questions
- No blind surveys
- Can't outsource

How Many Customer Interviews

- B2B – 25+
 - Profile
 - Job Title
 - Type of Company
- B2C – 50+
 - Demographic
- ㄟ(ツ)ㄟ = bad

Fundraising Note

You have opinions
You have Data
You get money!

Investors have opinions
They have money

Hypothesis vs Fact

- If you are convinced you're right you won't be open to radical feedback that could change the trajectory of your business & life!
- Always testing what you think you know
- Permission to give negative feedback
 - If this idea was to fail, why would it fail?
 - Why is this idea stupid?

Product Market Pull

6 Steps to “Test Driven Learning”

- 1. Define your Who, What, Why Statement** – identify what problems your customer wants you to solve
- 2. Be Scientific** – create a testable hypothesis
- 3. Build an Audience Matrix** (or real people or companies). Build audiences that accurately represent your vision
- 4. Test for Resonance.** Go into the market and run experiments that prove or refute your hypothesis
- 5. Measure.** Evaluate your results and see where you were correct
- 6. Iterate or Kill.** Reflect on your work and see if you’ve gained or lost conviction on the idea

Audience Matrix

Examples:

Audience name	Audience Description	Audience Size (est)
High school Scholarships	High school students looking to find scholarships they are eligible for, and can apply.	
Non-college bound	High school students looking to find career options that do not require degrees.	
Some college	Students in college looking for alternatives to degree-based career paths.	
B2C Parents	Parents of high school students who want to understand options for students seeking scholarships and alternative career paths.	

Value Prop Examples:

Market Segment	Variant A	Variant B
High school Scholarships	Fast & easy - takes minutes to get matched with no essay required.	Explore Options - understand what scholarships are available to you.
Non-college bound	Fastest path to a good wage	Upward mobility - Great career without college
Some college	Fastest path to a good wage	Upward mobility - Great career without college
B2C Parents	Explore Options to a good wage for your kids.	Upward mobility - Great career without college for your kids.

Takeaways

1. Working age group reacted well with the Feature Ad
2. Surprisingly, the older age group reacted the most with the Message Ad
3. Meta algorithm placed more weight on the Message Ad
4. TikTok was the best performer across all metrics
5. We assume that Meta & Instagram Ads did not perform well on some categories due to low budgets!

Next Week Actions:

1. Double budget for TikTok (\$300) and check variance in results.
2. Match the budget for Meta & Instagram with TikTok (\$300 each) and check variance in results.
3. Continue Ads of "Message" & "Feature" with different creatives

So, what has been a winner?
